

EDspaces

Designing the Future of Education

Charlotte, NC | November 7-9, 2023

What do students look like when they walk into your school?

Gather with your peers at EDspaces for conversation and collaboration to create a place where your students and teachers love to be.

Building a better future for your students and staff through the built environment

Engage with your community at EDspaces November 7-9, Charlotte, NC!

As the premier event focused on student outcomes through design of the learning environment, you will:

Learn in peer-designed classrooms where industry experts provide practical, usable strategies to help you, your students, and your facility thrive.

See in-person the most innovative approaches to learning environments during facility tours throughout the Charlotte area.

Touch, test and tinker with the newest and most innovative product solutions from a wide variety of EDspaces exhibitors.

Discuss high priority issues with a community of peers who have the same experiences as you, providing you with the ideas, strategies, and best practices to drive student success.

Attend EDspaces on us!

Scholarships for education facility personnel are available.

Don't miss the next wave of innovation shaping the learning environments of tomorrow.
